**Litewrapper**  
as simple as 1-2-3

## WRAP A PALLET WITH ONE HAND IN LESS THAN 1 MINUTE!

### Litewrapper.

The Litewrapper dispenser has a unique tensioning method, which allows users to wrap pallets with one hand. No bending, stretching or walking.

Litewrapper film is stiffer and stronger than conventional films and it's already prestretched. Litewrapper film give greater load holding force and reduces load shifting during transit.

**FASTER, BETTER, QUICKER and PAINLESS**

# QUICK PAK INC.

## No More!

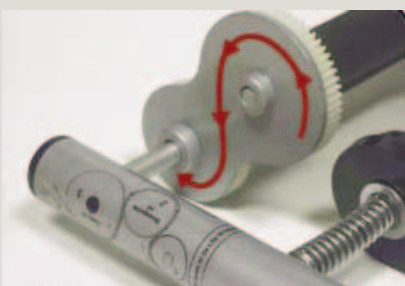

Walking backwards

Bending over

Getting dizzy

Film breaking

Low tension

Redesigned Litewrapper more durable

## With LiteWrapper you can wrap a pallet in less than one minute.

If you ever in your life wrapped a pallet by hand, you know the PAIN!

- You walk forward, so you see where you walk (safe) and you only need one hand.
- You do not need to bend, so no more back injuries or dizzy operators.
- Compared to conventional 80ga hand wrap, LiteWrapper is 70% lighter in weight.
- Tension on the pallets is regulated by the dispenser, not by the operator.
- The quality of wrapped pallets is constant, same as pallets wrapped by a machine.
- Stronger film, no "neck-down" of the film (film will not narrow while wrapping).
- More pallets wrapped with 1 roll of film.

**Bottom line.....FASTER, BETTER, QUICKER and PAINLESS**

Film Specs: 18" x 1500' - 4 rolls per case - 60 cases per pallet.

FREE LiteWrapper with every pallet.
