## HYBRiD80 our GREENER line of Stretch Film

The U.S. market is seeing a shift in the stretch film industry to lighter, stronger pallet wrap in both hand and machine grade film. Many top manufacturers have indicated that within 3 - 5 years the 80 gauge will no longer be sold in the market place because of current soaring cost to produce film.

We have developed a new line called HYBRiD80. This new line, will give you a break from high priced pallet stretch film.

We created this line to help our customers offset the rising costs of packaging and add more profit to the bottom line.

Quick Pak wants to stay ahead of the curve in developing and promoting new and innovative ways to help our customers.

16" x 12mu x 1500' (4 rolls per case)

32 cases per pallet

**Your COST: \$23.25/case + freight.**

Or will call from Tampa warehouse.
