Revolution LP & Litewrapper.

Litewrapper dispenser has a unique tensioning method, which allows users to wrap pallets with one hand. No bending, stretching or walking.

Litewrapper film is stiffer and stronger than conventional films and it's already prestretched. Litewrapper film give greater load holding force and reduces load shifting during transit.

Option of a custom fit all steel ramp for pallet jack loading

The Revolution LP™ uses 16 extra wide support rollers and heavy-duty chain drive.

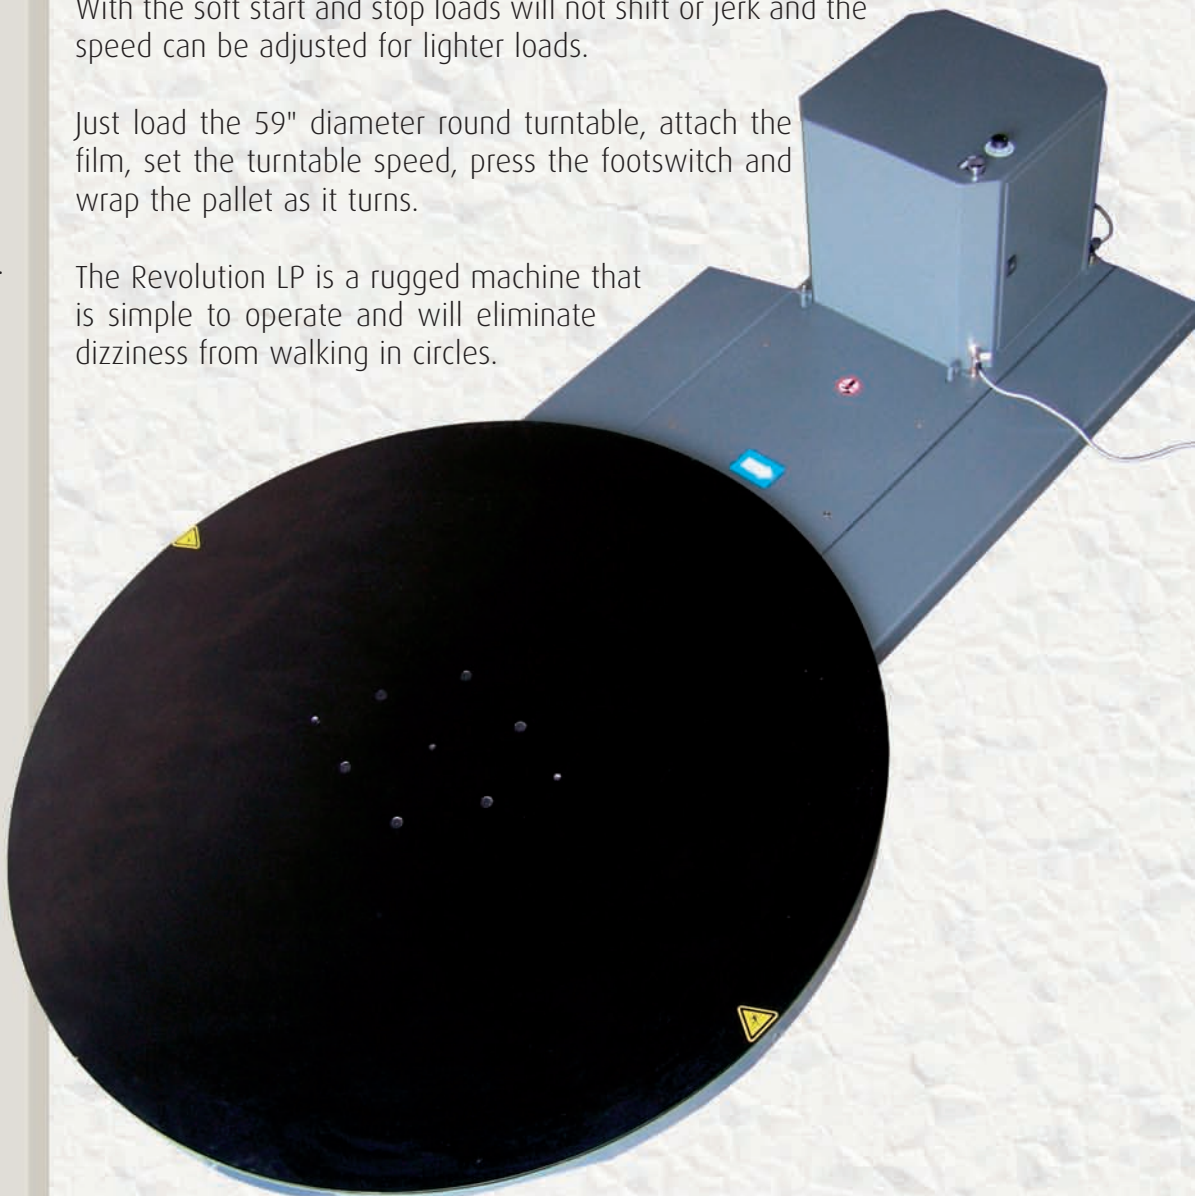

Revolution LP™

If you are wrapping pallets by hand and want to increase worker productivity consider the heavy-duty Revolution LP.

With the soft start and stop loads will not shift or jerk and the speed can be adjusted for lighter loads.

Just load the 59" diameter round turntable, attach the film, set the turntable speed, press the footswitch and wrap the pallet as it turns.

The Revolution LP is a rugged machine that is simple to operate and will eliminate dizziness from walking in circles.
